

Ayush Pandey

Employment

- Fall 2023 – **Assistant Professor (tenure-track, teaching)**, Electrical Engineering, University of California, Merced
Spring 2022 **Adjunct Professor**, Harvey Mudd College, CA, United States.

Education

- 2018 – 2023 **California Institute of Technology**, Pasadena, CA, United States
Ph.D. in Control & Dynamical Systems
Advisor: *Dr. Richard M. Murray*
Committee: *Dr. John C. Doyle, Dr. Niles A. Pearce (Caltech) and Dr. Domitilla Del Vecchio (MIT)*
Thesis: Modeling Frameworks for Modular and Scalable Biocircuit Design
- 2017 – 2018 **California Institute of Technology**, Pasadena, CA, United States
Master's in Electrical Engineering
- 2012 – 2017 **Indian Institute of Technology (IIT)**, Kharagpur, India
Bachelor's in Instrumentation Engineering and Master's in Control Systems Engineering
Advisors: *Dr. Saurav Patra & Dr. Siddhartha Mukhopadhyay*

Research Grants

- National Science Foundation Co-PI for project on “Adapting Design Thinking to Transform the Professional Development of Electrical Engineers in California’s Central Valley” funded under the [NSF Revolutionizing Engineering Departments \(RED\)](#) program. The project PI, as required by the program, is the department chair of Electrical Engineering at UC Merced, Sarah Kurtz. Total award: \$1,000,000
- CITRIS-UC Institute PI for project on “Safety guarantees in the context of generative artificial intelligence models” funded under the [CITRIS Seed Grant](#) program (with co-PI Gireeja Ranade, UC Berkeley). Total award: \$60,000
- UC Merced Senate PI for project on “Safety guarantees for large language models” funded by the Committee on Research. Total award: \$9,872
- Caltech CEMI Co-lead (graduate student grant) on “Model-Based Design of Microbial Self-Assembly Response to Environmental Conditions” awarded by Caltech [CEMI](#). Total award: \$30,000

Honors and Awards

- Best Thesis Awarded the best thesis in Instrumentation Engineering, IIT Kharagpur for the AY 2015-2016
- Best Poster/Talk (1) For our poster at IWBD 2020 on BioCRNpyler – a modular software for compiling biological system models in diverse contexts, and (2) For an oral presentation (by student, Aizen Baidya) on our project at the CITRIS Workforce Innovation Program 2025
- Top Innovator Awarded \$8000 at a national engineering innovation competition organized by KPIT, India for designing an autonomous bicycle with dual mode of locomotion

Research Fellowship	Awarded \$6000 for a summer internship in the SURF program at Caltech in 2015
Travel Grants	Conference travel support grants – NSF Molecular Programming Flightplan (Committee Moderator) , NSF NAIRR AI Unlocked Workshop 2025 , Google CAHSI Ideation Workshop 2024 , AI at Scale workshop at UC Riverside, INSPIRE 2024 by CA Learning Lab, COMBINE 2018 , IWBD 2019, 2022 , Build-A-Cell (2019, 2021, 2022, 2025)

Peer-Reviewed Journal Publications

Teaching Experience

2023 – **Assistant Professor, UC Merced.**

Course	Avg. Enroll.	Staff	Products	Evaluation (/7)
Spring '26 EE 122: Intro to Controls & Linear Systems (open-source repo)	48 UG	1 TA	Upper-division active learning	6.5/7
Spring '26 ENGR 193: Engineering Capstone I	46 UG	1 TA	I2G	6.4/7
Fall '25 EE 102: Signal Processing & Linear Systems (open-source repo)	40 UG	1 TA	Upper-division active learning	6.3/7
Spring '25, '26 EE 005: Designing and Building EE Systems (syllabus)	80 UG	4 UG readers	Hands-on EE	6.3/7
Fall '24, '25 EE 021: Introduction to EE Programming (syllabus)	60 UG	1 Grad TA, 4 UG readers	CS1 for EE	6.2/7
Spring '24 USTU 020: Introduction to Problem Solving (syllabus)	40 UG	2 UG readers	Hands-on education	6.5/7
Fall '23 ME 021: Engineering Computing (syllabus)	200 UG	3 Grad TAs 1 UG reader	Personalized projects	6.1/7
Su '25, Fall '23 CSE 019: Introduction to Computing (syllabus)	60 UG	1 Grad TA	Flexigrader	6.1/7

2022 **Adjunct Professor, Harvey Mudd College.**

Course	Enrollment	Product	Evaluation
Spring '22 ENGR 163: Introduction to Biomedical Engineering	5	Interactive notebook-based design	6.6/7

Fall 2019 & **Teaching Assistant, Caltech.**

Winter 2022 (Winter 2022) TA for the [Optimal Control and Estimation](#) course. (Fall 2019) TA for the [Linear Systems](#) course

- Fall 2021 & Fall 2022 **Workshop Organizer**, *International Workshop on Bio-Design Automation (IWBDA)*.
Organized a workshop at IWBDA 2021 and 2022 on modeling biological systems and using Bayesian inference to identify parameters from experimental data.
- Spring 2020 **Lecturer**, *Caltech BE240 – Open Source Tools for Biological Circuit Design*.
Gave 4 lectures and organized tutorial sessions for graduate and undergraduate students enrolled for the BE240 course at Caltech.
- Summer 2020 **Organizer & Lecturer**, *YouTube Tutorial Series on Modeling & Analysis of Biological Systems*.
Organized a bootcamp for summer undergraduate research fellows (SURF) at Caltech and members of the Build-A-Cell consortium. The video lectures from the series were later published as tutorials on [YouTube](#).
- 2017 – 2018 **Teaching Assistant**, *IIT Kharagpur*.
TA for the Nonlinear Control course for graduate students. TA for two lab courses for undergraduates: Measurements and Instrumentation (Fall) and Control Systems (Spring)

Patent

- 2016 **Ayush Pandey** (lead inventor), Subhamoy Mahajan, et al. "Autonomous Two-Wheeler with Dual Mode of Locomotion". Indian Patent **Granted**: 558183 (2025)

University Service

- EE Curriculum Design Co-designed a curriculum with focus on hands-on experiential learning for the new Electrical Engineering program at UC Merced.
- Curriculum Committee Member of the curriculum founding committee for the new Electrical Engineering department at UC Merced. Participated in the development of three new Electrical Engineering courses and reviewed the proposed curriculum for 12 courses in total.
- AI Guidelines Member of the UC Merced School of Engineering (SOE) committee on AI guidelines for education
- Enrollment Outreach Participated in various outreach activities in an effort to expand enrollment at the university and in the Electrical Engineering program in the School of Engineering at UC Merced: Bobcat Day Tabling and Outreach Lecture 2024-26, EE Webinar ([YouTube](#))
- Faculty participant in the "Experience UC Merced" program where I demonstrated UC Merced classroom teaching to prospective students
- Participated in a faculty panel at the UC Merced Admissions' Office reception event for newly admitted students and their parents.
- Faculty participant in the high school educators tour where I consulted with educators and counselors from across California about unique aspects of UC Merced.
- Mentor: IEEE and DSS Faculty mentor for the CITRIS aviation team, IEEE student chapter, and the Data Science Society at UC Merced.
- Broadening Participation Participated in a faculty panel at the Fiat Lux Scholars Program designed to promote networking among eligible first-generation undergraduate students at UC Merced.
- Faculty mentor in the Cal-Bridge Summer program and the Central Valley Pathways into Academic, Teaching, and Higher Education program
- Resident Associate for two undergraduate dorms at the California Institute of Technology.
- Mentor in the Freshman Summer Research Institute (FSRI) program at Caltech designed to introduce scientific research to underrepresented minorities in STEM.

Academic Community Service

Guest Editor	Virtual Special Issue on IWBD 2022 in ACS Synthetic Biology. <u>Published editorial: DOI:10.1021/acssynbio.4c00340</u>
Executive Editor	Member of the executive editorial board for the Art of Molecular Programming book leading the problem set team. The goal of the team is to review, edit, and add problem sets so that they are pedagogically consistent.
Publication Chair	Part of the core organizing team and the publication chair for the 14th International Workshop on Bio-Design Automation (IWBD)
Session Chair	American Society for Engineering Education (ASEE) Symposium 2024, 2025 (Evaluating Engineering Excellence, Evaluating Pre-college Impact, AI at the Pre-College), IEEE Conference on Decision and Control (CDC) 2021, International Workshop on Bio-Design Automation (Software and Pipelines)
Panel Review	NSF review panel for a Computer and Information Science and Engineering (CISE) program (2026) and for the Graduate Research Fellowship Program (GRFP) 2024-25
Reviewer	IEEE Transactions on Automatic Control (2 papers) Conference on Decision and Control (9 papers) Wiley International Journal of Robust and Nonlinear Control (2 papers) ACM Special Interest Group on Computer Science Education (6 papers; 3 assignments) ASEE: Data Science and Analytics Division (3 papers), Pre-College Engineering Education Division (6 papers), Equity Division (2 papers), Electrical and Computer Engineering Education (3 papers) IEEE EDUCON Conference (3 papers) IEEE Frontiers in Education Conference (3 papers) ACS Synthetic Biology (4 papers) ACS Omega (1 paper) International Journal of Control (1 paper) Nature Scientific Reports (2 papers) International Workshop on Bio-Design Automation (8 papers) Journal of Open Source Software (JOSS) (4 papers) Journal of Open Source Education (JOSE) (1 paper) Educational Advances in Artificial Intelligence (EAAI) (3 papers)
Panel Speaker	Invited panelist at a career panel for Postdoctoral Fellows of Engineering Excellence at MIT Invited panelist at a panel on effective undergraduate student mentoring, organized by Undergraduate Research Opportunities Center (UROC) at UC Merced Panelist at UC Merced Admissions Office Bay area reception for newly admitted students and parents. Faculty panelist at AIAA UC Merced Student Chapter's panel on graduate education
Workshop Organizer	(2025) Organized a bootcamp on Github for summer students at UC Merced; (2025) Co-organized a bio-modeling workshop for Caltech-ERDC; (2022) Organized a modeling workshop at the 13th International Workshop on Bio-Design Automation (IWBD) conference

Professional Development Grants

AI for Education	Selected to participate in the professional development workshop on designing courses to use AI as an ally. Awarded \$2000 for this Course Design Institute.
Faculty Success	Awarded \$3000 by the School of Engineering, UC Merced for participation in the Faculty Success Initiative – Extramural Funding Fellowship.

Scientific Teaching	Awarded \$300 professional development funds for participation in UC Merced's 3rd Mobile Summer Institute on Scientific Teaching (MoSIST).
Early Career Mentorship	Selected to participate in the early career faculty mentorship program to participate in the ACM Technical Symposium on Computer Science Education (TS SIGCSE 2024). Awarded \$1500 for this mentoring program.
ABET	Eight professional development hours for participation in the ABET Fundamentals of Program Assessment Workshop. PD funded by the Electrical Engineering department at UC Merced

Contributed & Invited Talks

LLNL 2025	"Can AI guarantee safety and robustness in controlling unstable systems?". Invited talk at the Lawrence Livermore National Lab (LLNL) workshop on AI for Power Systems
ASEE 2025	"Automated thematic analysis to quantify educational outcomes". 2025 American Society for Engineering Education (ASEE) Annual Symposium, Pre-College Engineering Education Division.
AI at UCM 2025	"Open-ended assessments in CS1 education". Symposium on Education and AI at UC Merced
ASEE 2024	"Can high school students learn neural networks?". 2024 American Society for Engineering Education (ASEE) Annual Symposium, Pre-College Engineering Education Division.
UROC, UC Merced	"Measuring the hallucinations of ChatGPT". Undergraduate Research Opportunities Center (UROC), Faculty Flash Talks, University of California, Merced.
Data Science, Berkeley	"Enhancing Student Learning and Research with Open-Source Tools for Data Science". Data Science Seminar, Electrical Engineering and Computer Science, University of California, Berkeley.
Colloquium, UCR	"Empowering Interdisciplinary Learning and Research with Open-Source Tools for Computational Biology". Computer Science Colloquium, University of California, Riverside.
IWBDA 2022	"Characterization of integrase and excisionase activity in cell-free protein expression system using a modeling and analysis pipeline". International Workshop on Bio-Design Automation held with iGEM Jamboree, in Paris, France.
IWBDA 2022	"From Specification to Implementation: Assume-Guarantee Contracts for Synthetic Biology". International Workshop on Bio-Design Automation held with iGEM Jamboree, in Paris, France.
IBDRC 2021	"On reduced models for gene expression and biological circuit design". International Bio-Design Research Conference (IBDRC), Virtual.
Build-A-Cell 2020	"On biosensors and synthetic biology". Build-A-Cell Seminar Series, Virtual.
ACC 2020	"On a new converse Lyapunov theorem and its application for domain of attraction computation". American Control Conference, Virtual.
q-Bio 2020	"On Auto-Reduce – A Python toolbox for model reduction". Quantitative Biology at Hawaii, US.
Imperial College	"On an automated method for model reduction of synthetic biological circuits". At Imperial College London, July 2019.
IWBDA 2019	"On an automated method for model reduction of synthetic biological circuits". International Workshop on Bio-Design Automation at University of Cambridge, UK.
COMBINE 2018	"On Sub-SBML – A software package to combine multiple models of biological systems using compartmentalization". COMBINE at University of Boston, US.
IRC 2017	"On modeling and control of an autonomous three-wheeled mobile robot with front steer". International Robotics Conference at Taichung, Taiwan (ROC).

ITEC 2015 “On i-Bike – An autonomous bike with switchable modes of locomotion”. International Transportation Electrification Conference at Chennai, India.
